FR KERMEL® BODYWEAR

Fabric	48.5% Kermel® / 48.5% FR Viscose / 3% Beltron interlock knit
Weight	230g/m ²
Fabric Technology	Antistatic, highly resistant to abrasion
Seam Construction	Flatlock seams
Hydrocarbon Flash Fire Data <small>CAN-CGSB</small>	CAN-CGSB 155.20 Sections 6.1.1.; 6.1.2.; 6.1.3.; and 6.3.
Arc Flash Data	NFPA 70E / CSA Z496
Arc Thermal Performance Value <small>ATPV</small>	12.2 cal/cm ²
Hazard Risk Category <small>HRC</small>	HRC 2 as per NFPA 70E and CSA Z462
Heat Attenuation Factor <small>HAF</small>	HAF 81.1%

Outfitting employees to be safe from flash fire and ARC explosions starts from the base layer. Employees that wear just outer layers of flame retardant clothing do not maximize the protection that could save their lives, or cut down on burn exposure. Wearing inappropriate FR base layers can lead to devastating injuries in the case of ARC flash.

Layering three levels of flame retardant clothing will protect employees on the job and give peace of mind while working. The addition of a FR base layer to an FR outer layer will add to the overall ARC and flame protection that the garment system offers.

Helly Hansen FR bodywear helps to protect from the cold. Using a woven 230 gram blend of Kermel®, Viscose and Beltron Antistatic, the garment is warm and wicks moisture away from the body and through to the next layer. This is important because moisture buildup can add to risk during an ARC flash incident. The Beltron antistatic agent helps diffuse some of this risk.

The blend of the material ensures a soft hand and elasticity for freedom of movement. The colour will not wash out over the life of the garment and the fabric will not pill. The garment will keep employees dry and comfortable throughout their work, keeping their efficiency level high. The flame retardant and anti-static properties will help keep employees Dry. Warm. Safe. At Work.

FEATURES

- Crewneck and Pant have double self-fabric cuffs
 - Accessories feature generous neck coverage, expandable face opening, eye and mouth opening, and double layer.
 - Fire resistance protection is permanent and will not wash out
 - **COLOUR:** Royal
 - **SIZES:** Reg S-3XL, Tall M-3XL
- Accessories are all One Size
